DEATH BENEFIT OPTIONS

There are two death benefit options available

- Option A - Level Death Benefit (equal to the Face Amount)
- Option B - Increasing Death Benefit (equal to the Face Amount plus the Accumulation Value)

NO LAPSE GUARANTEE

The policy is guaranteed to remain in force during the first five policy years if the total premium paid, less withdrawals and indebtedness, is at least equal to the cumulative monthly no lapse premium required. After the first five years, the policy is guaranteed to remain in force if the no lapse guarantee value, minus any indebtedness, is greater than zero.

GUARANTEED ANNUAL INTEREST RATE

There is a minimum guaranteed interest rate of 2.5% annually over the lifetime of the policy.

SURRENDER CHARGES

A surrender charge will apply if the policy is surrendered during the first twenty years. The surrender charge is equal to the factor shown in the surrender charge factor table on the policy data page multiplied by the face amount per \$1,000.

LOANS

Loans are allowed any time after the policy has a cash surrender value. The policy loan interest is 6% in arrears. The maximum loan amount equals the cash surrender value minus the anticipated cost of insurance charges, rider charges, administrative charges, policy expense charges and loan interest on the indebtedness from the date of the loan to the next policy anniversary.

PREFERRED LOANS

After the policy has been in force for ten years, the amount of any indebtedness, up to the amount of interest earned in the policy, will be charged interest at a rate that will be equal to the guaranteed annual interest rate.

PARTIAL WITHDRAWALS

After the first policy year, one partial withdrawal is allowed during each following policy year. There is a \$25 service fee for each partial withdrawal taken. The maximum partial withdrawal is the net surrender value less \$500. The minimum partial withdrawal, plus service fee, must be at least \$500.

AVAILABLE RIDERS

Inherent Rider

ACCELERATED BENEFIT INSURANCE RIDER

This inherent rider is included at no additional cost. The rider advances a portion of the death benefit proceeds if eligibility requirements are satisfied for a Terminal Condition or a Chronic Illness. The minimum amount that may be accelerated is \$5,000 and the maximum amount is the lesser of \$400,000 or 25% of the death benefit. A one-time administrative fee, the lesser of \$250 or the maximum allowed by state law, will be deducted from the elected accelerated benefit amount and the remainder will be paid in a lump sum.

Terminal Condition

Terminal Condition means that the insured's death is expected within 12 months or less.

Chronic Illness

Chronic Illness⁴ means that the insured is unable to perform at least two of six activities of daily living (ADLs) without help and has been unable to perform these activities for at least 60 consecutive days.

The activities of daily living are: Eating, Bathing, Dressing, Toileting, Transferring/Walking, Continence.

After the insured has been diagnosed with a chronic illness, the owner may elect to advance a portion of the death benefit amount.⁴ The elected amount will be discounted for mortality and interest, resulting in a payment amount that is less than the actual accelerated death benefit amount elected.
